INTRODUCTION

USC 2021 Education, Culture, Art, Science, and Sports (EDUCARSS) is an exciting SUMMER COURSE for students around the world to learn about Indonesia. This guide will provide information related to this life-changing cultural journey.

USC 2021-Education, Culture, Art, Science, and Sports (EDUCARSS), is a non-profit program organized by the Office of International Affairs, UNESA. The purpose of USC 2021 is to develop young people's international perspective and promote UNESA and Indonesia, especially East Java Province and Surabaya. The ultimate goal of this program is to encourage students to recognize the diversity of the world societies and give them opportunities to experience different cultures.

PURPOSE OF PLAN

In the past decade, the Indonesia government has been encouraging students from all over the world to broaden their knowledge about Indonesia, and provide opportunities to experience different cultures. UNESA, as a part of Indonesia government and one of the leading Indonesian University based in Eastern Indonesia, also recognize this opportunity to introduce Javanese, especially Surabayan culture. Although some students can travel abroad, not every student can afford to travel overseas for a long time. Therefore, our program, **USC 2021, Education, Culture, Art, Science, and Sports (EDUCARSS)**, is more economically beneficials because students from around the world can come and join the short summer course.

Due the restriction of Pandemic Covid-19 and safety priority, the **USC 2021, Education, Culture, Art, Science, and Sports (EDUCARSS)** will be held virtually using the online class provided by Unesa. Fortunately, with this adjustment, participants can join **USC-EDUCARSS 2021** without paying.

USC-EDUCARSS 2021 will provide an opportunity to students to experience Indonesian culture, enhance their Indonesian language skills, Art and Craft, Sport, and Science. In the meantime, students can make world friends virtually without expenses, and broaden their perspective of the world.

GOALS AND OBJECTIVES

FOR INDONESIAN STUDENTS

- To have the opportunity to exchange their cultures and promote friendship with overseas Students.
- To enhance their English language skills in both speaking and listening by immersing themselves in an English language environment.
- Promote critical thinking, cross-cultural understanding, and public speaking skills.
- Opportunity to earn class credit from international activities.

FOR INTERNATIONAL STUDENTS

- Provide opportunities to learn Indonesian language, culture, and ways of lives for overseas students.
- Opportunity to make friends with the students from Indonesia and other countries.
- Opportunity to observe, learn, and participate in new cultures.
- Promote critical thinking, cross-cultural understanding, and public speaking skills.
- Opportunity to earn class credit from international activities.
